

The Adventures of Sherlock Holmes is one of Sir Arthur Conan Doyle's most well-known works. It is a compilation of 12 short stories that stars the renowned investigator Sherlock Holmes and his dear companion Dr. John Watson.

Voyant Tools is a web-based set of text analysis tools to assist users in exploring and analyzing huge quantities of text data.

As we can see, the map highlights London the most of out of all, which makes perfect sense since Sherlock Holmes is from London.

According to the word cloud tool Cirrus, "said" is the most frequent word in the Adventures of Sherlock Holmes.

This shows that there are many sayings throughout the text. The tool WordTree also shows the word "said" followed by a quote or comma.
